GT200 New Fingerprint Time Attendance Terminal with battery

Introduction

The GT200 is one of the intelligent fingerprint time attendance of new generation, support both network and standalone. wireless GPRS/Wi-Fi makes communication with PC easier. USB flash drive for offline data management. Higher-speed CPU, newest fingerprint Algorithm and friendly user-interface make operation much comfortable. Built-in battery provides approx 3-4 hours operation for power failure.

Basic Feature

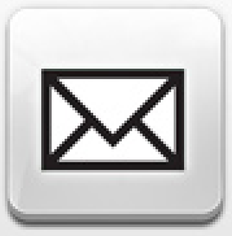
3"Color screen

Photo ID

T9 Input

Workcode

Webserver



SMS

Schedule bell

Distinctive Function

- Define the shortcut keys easily
- Data encrypted in the device
- RS232/485, TCP/IP, USB client/host
- User role management
- Fingerprint expired date setting
- Change Main screen picture easily

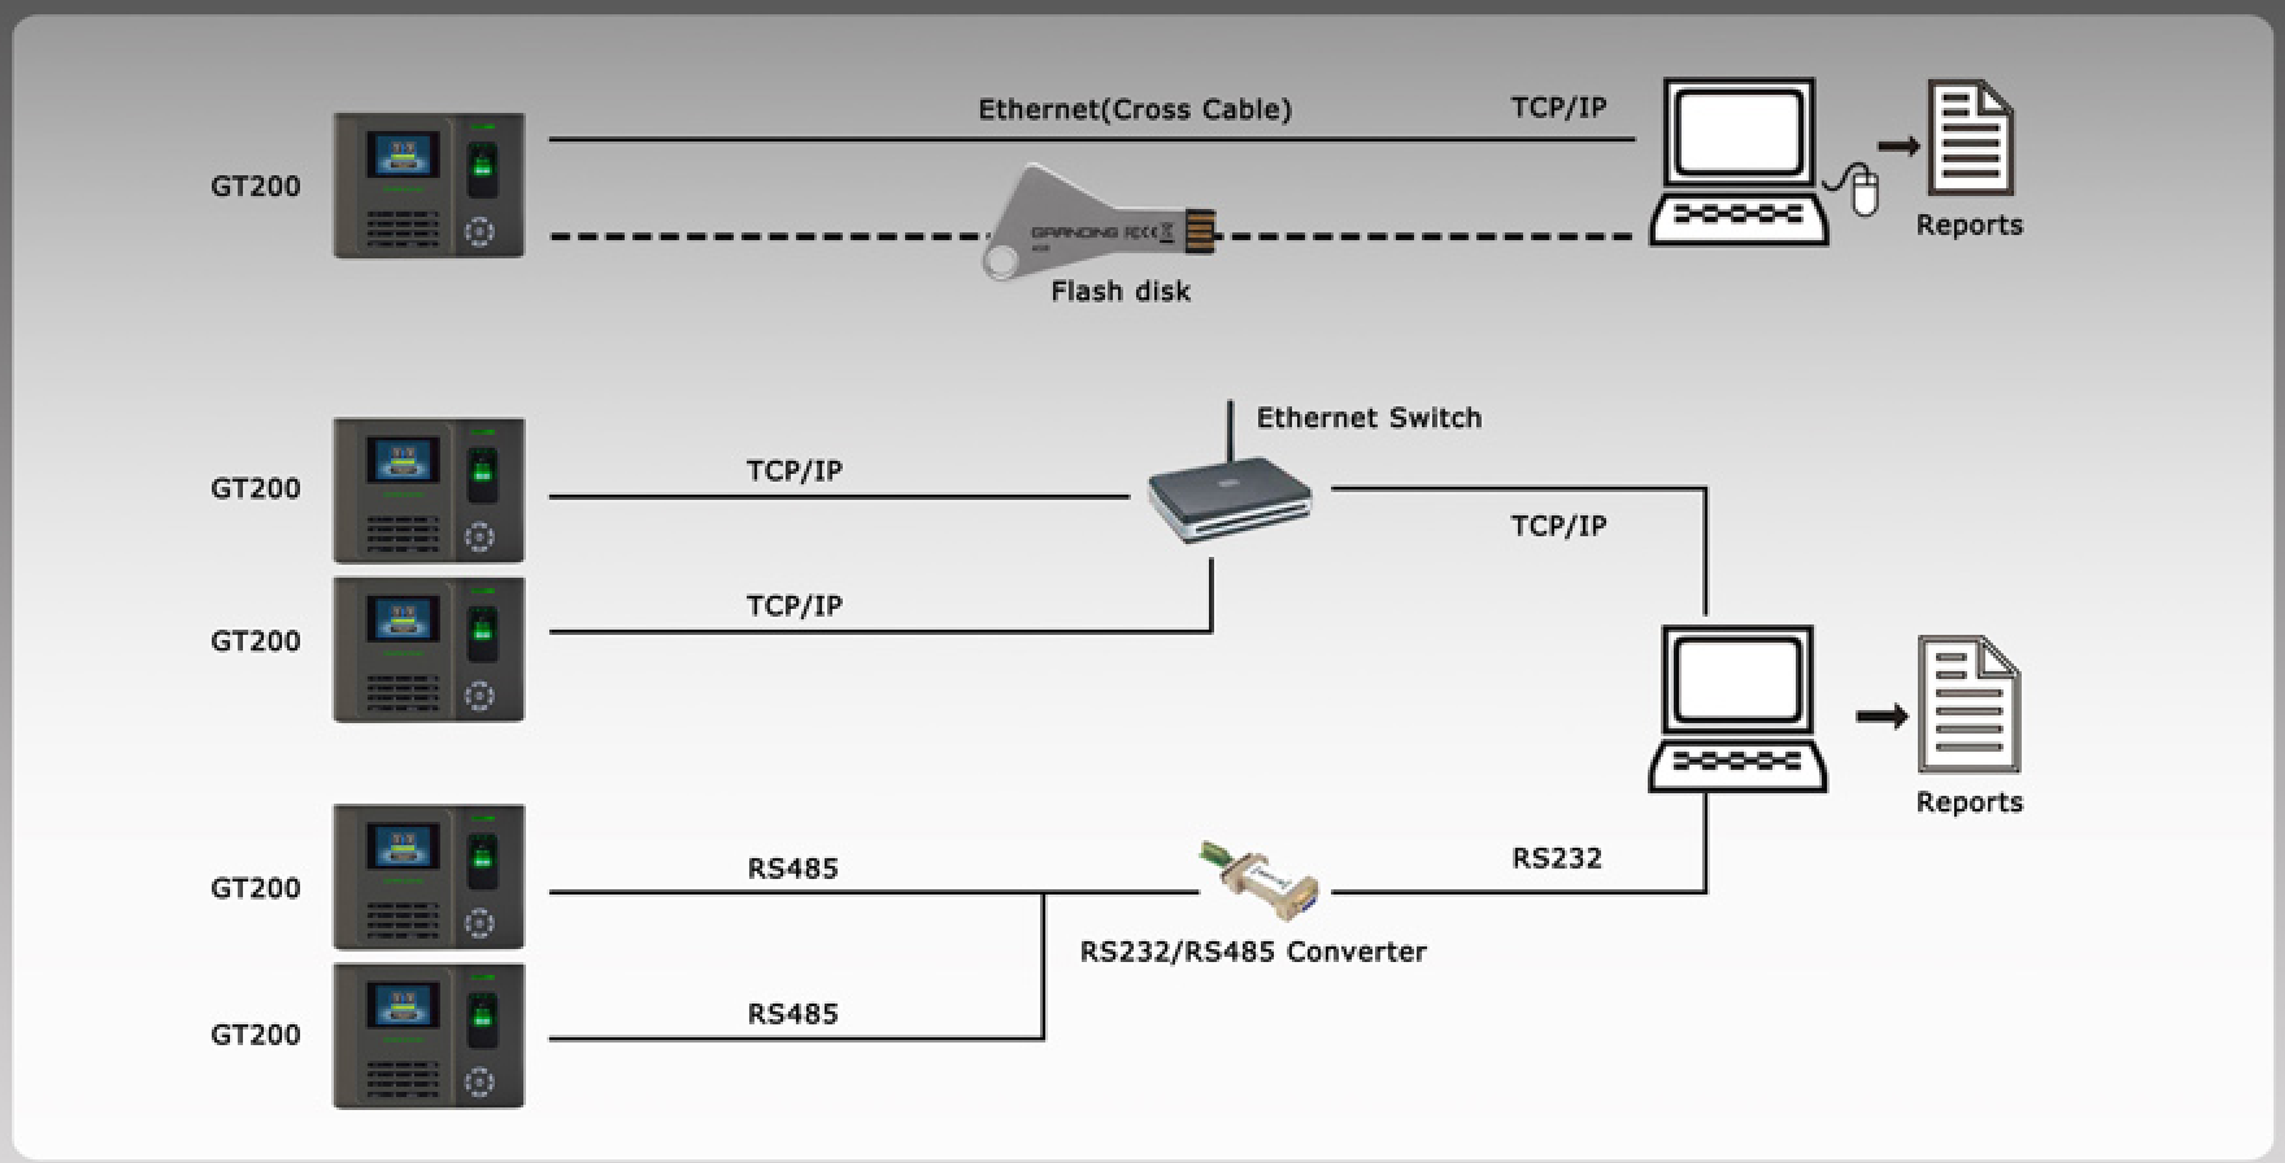
Working Application



Specification

Model	Language
GT200	Multi Language, English, French, Spanish, Arabic, etc.,
Display/Speaker	**Environment**
LCD Display: 3" TFT screen	Operation temperature: 0°C-45°C
Speaker: Voice Prompt (language can be selected)	Operation humidity: 20% ~ 80%
Technical Specifications Capacity	**Packing data**
Fingerprint capacity:3,000	Machine size: 210(L)*157(W)*50(H)mm,
Log capacity:100,000	Unit packing: 270(L)*235(W)*90(H)mm
Verification/Identification	Real weight:1kg, Gross weight:1.5kg
Verification speed(1:1): ≤0.5s	**Attendance status**
Identification speed(1:N): ≤1s	Check in, Check out, Break in, Break out,
FRR: ≤0.01% FAR: ≤0.0001%	Overtime in, Overtime out
Power Supply	**Customize Function**
110/220V AC-12V/1.5A	Print function, 9 PIN user ID, ID / Mifare / HID card reader,
Built-in Li-battery 7.4V 2000mAh	Wi-Fi, ADMS, GPRS, external siren
Communication	
TCP/IP, USB Host/client, RS232/485
